

Route Instructions. (34 instruction points)

NOTE: You may drive through sets of lights, intersections or roundabouts that are **not** listed/marked on this instruction sheet. Anytime you need to turn or stop it will be listed and easy to find. Any obvious landmark (like railway crossings) will be listed to keep you on course. All care has been taken in the construction of this route plan, but roads are continually being changed, so while you maybe able to turn right at one intersection today, tomorrow it may not be the same.

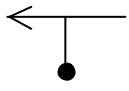

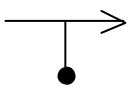

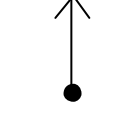

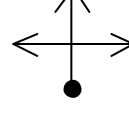

For reference this run was completed on 04th May 2003. The run commenced from the car park at the east most end of the South Perth Esplanade.
